Moments in Bronze announces the launch of a new web experience developed by Cyber View

LOUISVILLE, Ky. — Moments in Bronze announced today the launch of a new web site and on-line store (www.momentsinbronze.com) to promote their bronze artwork and services to potential customers. Cyber View was selected to collaborate on the project and assisted Moments in Bronze throughout the process of ideation, brainstorming, and strategy development.

The new web site, www.momentsinbronze.com, highlights the services and portfolio of Moments in Bronze. The on-line store features smaller bronze pieces available to be ordered by the general public, including the limited edition Purdue Unfinished Block P replicas (commissioned by Purdue University).

About Cyber View

Cyber View is an international web and interactive multimedia company based in Louisville, Ky. Since 1999 Cyber View has offered services geared to businesses of all sizes, including: web design, graphic design, web development, multimedia, online commerce, web hosting, marketing, and branding. For more information, visit www.cyberviewsites.com.

About Moments in Bronze

For over 13 years, Rick and Rita have been working in the bronze medium. We have an array of subject matter consisting of "Native American", "Equine Sporting Art", "Safari Animals" and "Automotive Classics". Our works range from table top size to monumental; and from the very "free flowing" stylized pieces to extremely detailed works in realism. As well as having a very diverse portfolio, we also create our works from the ground up. For more information, visit www.momentsinbronze.com.
